

# MODULAR MAST SYSTEMS

- Cost-Effective Choice of Heights & Bases
- High Headloads (MULTIPLE OPERATOR CAPACITY)
- Reusable & Off-The-Shelf (UPGRADE, EXTEND OR REDUCE)
- Rapid Deployment
- Fast & Low Cost Installation
- Low Environmental Impact
- Climbable
- RFID Tagged
- Incredibly Strong
- Easy Training
- Made in UK
- Easily Transported

Hire & Lease Fleet  
Launched  
2023

(Factory Demonstrations  
Available by Appointment)

**NOW AVAILABLE FOR HIRE & LEASE**  
(short-term & long-term options)

# THE M FLEXIBLE LIFECYCLE (REDUCE/ EXTEND/ MAINTAIN)

The Modular Mast System uses a limited number of components, at various scales, to provide an infinite number of configurations. We design a solution for your needs and then deliver a modular mast system to site for you or alternatively, your existing contractors can deploy the mast/ towers once familiar with the product.

Full training is provided to suit your requirements.

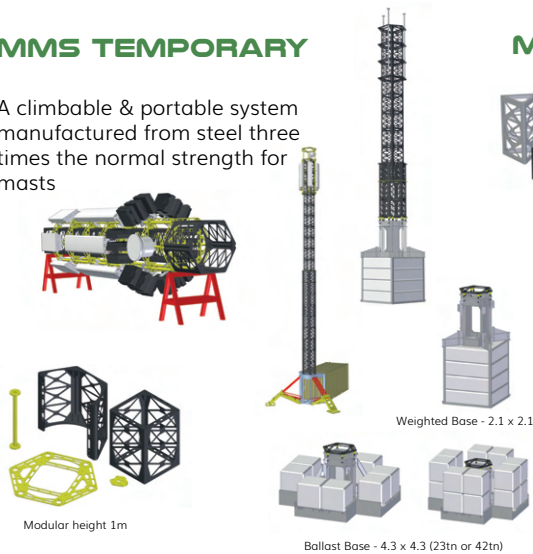

Nb. Comprehensive calculations are included to prove they are fit for purpose.

## THE M OPTIONS

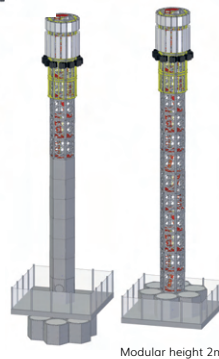

### MMS TEMPORARY

A climbable & portable system manufactured from steel three times the normal strength for masts

### MMS PERMANENT

- - temporary
- - permanent

NOT TO SCALE

### MORE INFORMATION:

A full brochure is available via the product website below and we have a demo mast array at our factory in Derbyshire and can show you example client installations by appointment and approval as well.

Our system has a **global patent** and is **available worldwide**. We are expanding our partner network and welcome approaches for licensing/ collaboration as well.

Full technical specifications and product configuration options available on request
